

Prof. Dr. Ali AKDOĞAN
Rector

Ordu University, founded in 2006; 11 Faculties today, 1 School, 8 Vocational Schools and 3 Institutes offers a quality education and training.

The airport, located 12 km from the main campus of the University, Domestic and international travel to Ordu city in the north of our country has facilitated its possibilities. In this way, it is possible to see the Black Sea region's natural beauty and tasting Ordu's famous honey and hazelnut.

Moreover, our country is the second in the world in honey production, while our city is the first in this product. Our city in hazelnut production is the first both in Turkey and the world.

Due to its institutional structure, Ordu University which has been popularized with scientific studies and researches founded the Research Project Office. The Works of this Office which have been run are accomplished as projects. Ordu University Center Research Laboratory which carried out projects with partners from many different institutions continues to contribute to science with its studies.

Our main campus is 7 km away from the city center, events and sports activities during the training season continues. Student residence located in the main campus also fully meets the accommodation according to the needs of the students.

The number of student communities established within the university and this the aims and activities of the communities is the most important indicator of how accurate for those who prefer Ordu University. Our university, with all its academic and administrative staff, progress towards its goals to contribute to its development and aimed to raise our youth.
